

Optilube™ sachets of lubricant

For use with supraglottic airways, endotracheal tubes and naso/oropharyngeal airways

Optilube™ sachets of lubricant

For use with supraglottic airways, endotracheal tubes and naso/oropharyngeal airways

To complement our wide range of airway devices, we are delighted to announce the addition of sachets of lubricant to our product portfolio as a service to our customers.

The Optilube sachets of lubricant contain 5g of water soluble lubricating jelly for use in the preparation of airway devices such as supraglottic airways, endotracheal tubes and naso/oropharyngeal airways. It can also be used to prime the gastric channel of 2nd generation airway devices such as the i-gel or lubricate suction and orogastric tubes.

Optilube sachets are harmless to human tissue and will not injure rubber, metal appliances, instruments and natural or synthetic textiles.
