## Resuscitation and emergency care products

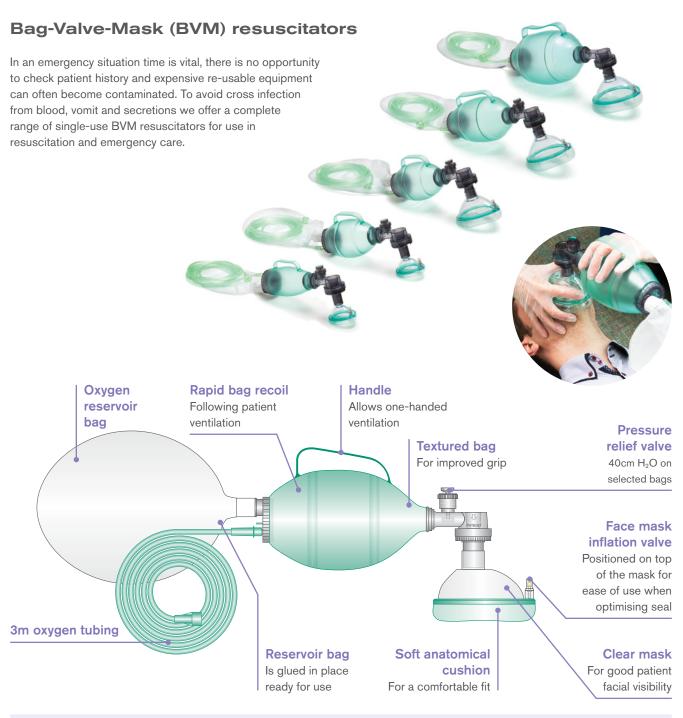

Kwaliteit, innovatie en keuze

## The complete solution

Intersurgical can offer you a complete range of products for use in an emergency and resuscitation situation. From initial mouth-to-mask ventilation, to airway management, oxygen therapy and accessories.

| Code    | Description  | Mask Size | Box Qty. |

#### Pocket resuscitation mask

The quick and convenient, ready to use resuscitation mask Allows you to give immediate respiratory support to your patient without

Allows you to give inimediate respiratory support to your patient without compromising yourself. Vastly improving the hygiene of mouth-to-mouth resuscitation, the one-way protection valve means gas can pass from the resuscitator to patient without any physical contact between two, minimising the risk of cross contamination. The soft cuff moulds itself to the contours of the patient's face providing a comfortable air-tight seal, and the crystal clear mask makes for perfect visualisation of the patient's colour giving an immediate indication of the effectiveness of respiratory support. Any vomit, mucous or foreign body blocking the patient's airway can be easily seen. Fitted with a standard 15mm male connector, it will fit our standard resuscitation and breathing systems. An oxygen connector allows for the delivery of supplementary oxygen.

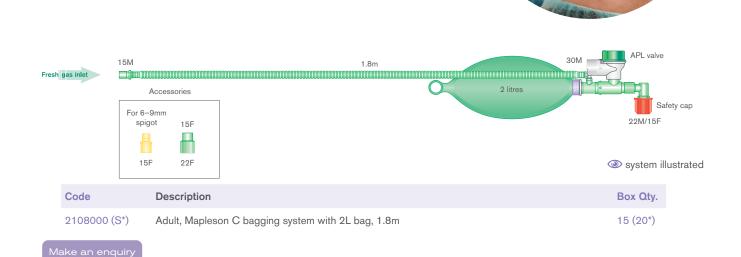

## Adult bagging systems – Mapleson C

The versatile Mapleson C System is ideally suited for use in intensive care, recovery areas and accident and emergency departments. Used for induction of anaesthesia, resuscitation, patient transport and 'bagging', the system offers more 'feel' of the patient's lung compliance than that provided by a BVM resuscitation system.

#### Paediatric bagging systems

Available in 0.5 and 1 litre options, this paediatric version of the universally accepted adult bagging system incorporates a CO<sub>2</sub> monitoring elbow at the patient connection for direct sampling. This system can be utilised in a wide range of clinical applications including physiotherapy, patient transfer, resuscitation, and may be used for both spontaneously breathing and hand ventilated patients in theatre and recovery.

## One-piece Guedel airways

#### Safer by design

By using the latest manufacturing technology Intersurgical has produced the first major breakthrough in Guedel airway design for thirty years.

Combining two materials with very different physical characteristics into one moulding, our One-piece design eliminates the separate bite block found in all conventional Guedel airways.

Loose or detached bite blocks constitute a real threat to patient safety and have been the subject of several hazard notices in the past. Our One-piece design overcomes all of the associated risks.

As well as improved safety, the One-piece also incorporates a soft tip reducing the risk of trauma to the patient. We also offer a sterile option, providing a further choice.

## i-gel<sup>®</sup> supraglottic airway

#### For use in anaesthesia and resuscitation

i-gel is a truly unique, single use, latex and PVC free second generation supraglottic airway management device that represents the culmination of years of extensive research and development. Made from a medical grade thermoplastic elastomer, i-gel has been designed to create a non-inflatable, anatomical seal of the pharyngeal, laryngeal and perilaryngeal structures whilst avoiding compression trauma. i-gel is currently available in seven sizes and is supplied in an innovative, colour-coded polypropylene protective cradle or cage pack.

## Solus<sup>™</sup> laryngeal mask airways

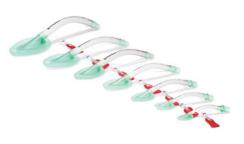

A comprehensive range of single use laryngeal mask airways suitable for anaesthesia and emergency medicine.

Designed to meet the needs of a variety of clinical scenarios, all Solus laryngeal mask airways are single use, latex free and supplied sterile.

#### Solus Standard

Using specially chosen materials, the Solus Standard is manufactured with the quality, flexibility and strength required to work effectively in a range of demanding clinical applications, including paediatric anaesthesia. Available in a full size range, from adult to neonate.

| Code    | Description                           | Size           | Weight          | Box Qty. |
|---------|---------------------------------------|----------------|-----------------|----------|
| 8005000 | Solus Standard, laryngeal mask airway | 5 Large adul   | t 70+kg         | 20       |
| 8004000 | Solus Standard, laryngeal mask airway | 4 Medium ac    | lult 50–70kg    | 20       |
| 8003000 | Solus Standard, laryngeal mask airway | 3 Small adult  | t 30–50kg       | 20       |
| 8025000 | Solus Standard, laryngeal mask airway | 2.5 Large paed | diatric 20–30kg | 20       |
| 8002000 | Solus Standard, laryngeal mask airway | 2 Small paed   | liatric 10–20kg | 20       |
| 8015000 | Solus Standard, laryngeal mask airway | 1.5 Infant     | 5–10kg          | 20       |
| 8001000 | Solus Standard, laryngeal mask airway | 1 Neonate      | <5kg            | 20       |

### Solus Satin

Solus Satin is our range of single use laryngeal mask airways featuring a softer airway tube providing increased flexibility.

| Code    | Description                        | Size | •            | Weight  | Box Qty. |   |
|---------|------------------------------------|------|--------------|---------|----------|---|
| 8005003 | Solus Satin, laryngeal mask airway | 5    | Large adult  | 70+kg   | 20       | 9 |
| 8004003 | Solus Satin, laryngeal mask airway | 4    | Medium adult | 50-70kg | 20       | 9 |
| 8003003 | Solus Satin, laryngeal mask airway | 3    | Small adult  | 30–50kg | 20       | 8 |

#### **Solus Curve**

Solus Curve is our laryngeal mask for those who prefer the insertion characteristics of a device with a curved airway tube.

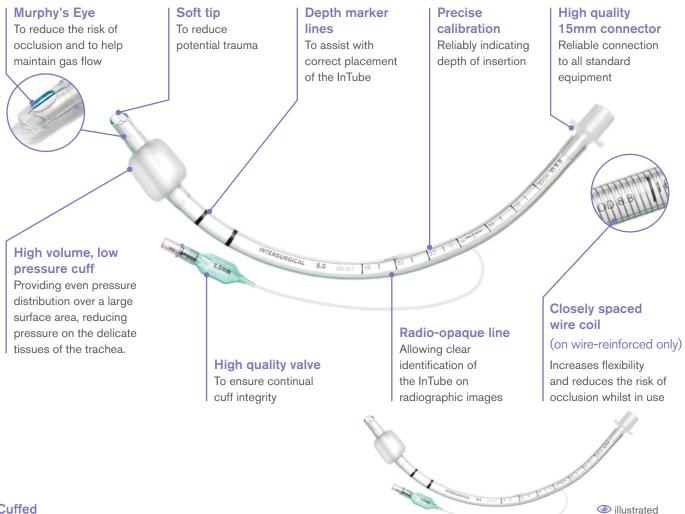

| Code    | Description                        | Size           | Weight  | Box Qty. |
|---------|------------------------------------|----------------|---------|----------|
| 8005050 | Solus Curve, laryngeal mask airway | 5 Large adult  | 70+kg   | 20 😒     |
| 8004050 | Solus Curve, laryngeal mask airway | 4 Medium adult | 50-70kg | 20 S     |
| 8003050 | Solus Curve, laryngeal mask airway | 3 Small adult  | 30–50kg | 20 🕄     |

## Intersurgical InTube<sup>™</sup> tracheal tubes

Designed for use in anaesthesia, A&E and emergency medicine, the Intersurgical InTube range offers three varieties of tracheal tube: cuffed, reinforced and uncuffed, in a comprehensive range of sizes from paediatric to adult. Supplied sterile, individually packed, latex free and for single use.

#### Cuffed

|   | Code    | Description                  | Size (Inner Diameter) | Box Qty. |  |
|---|---------|------------------------------|-----------------------|----------|--|
|   | 8040100 | InTube tracheal tube, cuffed | 10.0mm                | 10       |  |
|   | 8040095 | InTube tracheal tube, cuffed | 9.5mm                 | 10       |  |
|   | 8040090 | InTube tracheal tube, cuffed | 9.0mm                 | 10       |  |
|   | 8040085 | InTube tracheal tube, cuffed | 8.5mm                 | 10       |  |
| ٩ | 8040080 | InTube tracheal tube, cuffed | 8.0mm                 | 10       |  |
|   | 8040075 | InTube tracheal tube, cuffed | 7.5mm                 | 10       |  |
|   | 8040070 | InTube tracheal tube, cuffed | 7.0mm                 | 10       |  |

| 8080014 | InterForm intubating stylet | 14FR | 4.7mm               | 340mm  | 10       | 8 |
| 8080010 | InterForm intubating stylet | 10FR | 3.3mm               | 340mm  | 10       | S |
| 8080006 | InterForm intubating stylet | 6FR  | 2.0mm               | 275mm  | 10       | 8 |

## Plastic single use laryngoscope blades

Intersurgical plastic single use laryngoscope blades provide a safe, strong, light and cost-effective alternative to reusable metal versions. The range of Miller and Macintosh blades provides effective illumination and visualisation of the airway to aid with intubation and airway clearance. Our blades are compatible with the ISO7376-3 green specification handles, as indicated by the green dot near the heel of the blade.

Single construction blade made from high impact grade ABS plastic Rigid blade which is a cost effective, disposable alternative to reusable and

## OptiLube<sup>™</sup> sachets of lubricant

Plastic laryngoscope blade, fibre optic, Miller

Plastic laryngoscope blade, fibre optic, Miller

OptiLube<sup>™</sup> sachets of lubricant contain 5g of water soluble lubricating jelly for use in the preparation of airway devices such as supraglottic airways, endotracheal tubes and naso/ oropharyngeal airways. It can also be used to prime the gastric channel of second generation airway devices such as the i-gel<sup>®</sup> or lubricate suction and orogastric tubes. OptiLube™ is available in box quantities of 150.

Description

OptiLube™, sachets of lubricant, 5g

Box Qty. 150

5469000

## HyperVent<sup>™</sup> bag

The HyperVent bag is designed to facilitate the treatment of hyperventilation and replace the paper bag currently used. Comprising a housing with integral mouthpiece ensuring it is easy for the patient to hold, connected to a strong plastic bag. Unlike paper bags, the HyperVent bag overcomes the danger of hypoxia, inhalation of foreign bodies and potential source of infection. It also does not disintegrate with use and is medically clean.

## Respi-Check<sup>™</sup> breathing indicator mask

Respiratory rate is an accurate reflection of severity of illness and if carefully measured is a sensitive marker of accurate respiratory and metabolic dysfunction, especially in the critical care setting. The Respi-Check breathing indicator provides a simple and inexpensive solution to improving the accuracy of respiratory rate measurement.

## QuadraLite<sup>™</sup> anaesthetic face masks

#### A truly unique anaesthetic face mask

Unlike traditional face masks, QuadraLite does not use an inflatable cushion. Innovative moulding techniques have enabled the combination of two ideally suited materials to create a face mask with an anatomical shape and soft seal. This provides a comfortable superior airtight fit with a clear shell to enhance patient face visibility.

#### Four sizes for all patients

The QuadraLite range has only four sizes instead of the traditional seven, providing a solution for all patients due to its unique anatomical shape and requirement for minimal downward pressure to achieve an airtight seal.
